

Phytochemistry for a Sustainable Future: Bridging Nature, Innovation, and Health

PSE ANNUAL MEETING 2026

POSTER LIST

P1	Aikaterini Koutsaviti	Isolation and Structure Elucidation of Key Intermediates in the Biosynthetic Pathway of Paclitaxel
P2	Aikaterini Koutsaviti	Comparative Analysis of the Essential Oil of <i>Solidago virgaurea</i> L. from Greece and Bulgaria
P3	Alessia Palazzo	NMR-Based Metabolomics as a Starting Point for the Identification of Natural Products Targeting Colorectal Cancer Cells
P4	Alessia Saviano	Structural Elucidation through NMR Analysis of Specialized Metabolites from Myrtaceae plants and Evaluation of their Antimicrobial Activities.
P5	Deividas Burdulis	The Influence of Biochar on Accumulation of Polyphenolic Compounds in <i>Paulownia Tomentosa</i> (Thunb). Steud. Leaves
P6	Gülin Renda	Bioactivity-Guided Isolation of Secondary Metabolites from <i>Verbascum kurdicum</i> and Their Cytoprotective and Anti-Inflammatory Effects Against Cigarette Smoke Extract-Induced Bronchial Epithelial Cell Damage
P7	Gülin Renda	Activity-Guided Isolation of Astragalin from <i>Erigeron annuus</i> (L.) Pers. Aerial Parts Reveals Tyrosinase Inhibitory, DNA-Protective, and Cosmeceutical Potential
P8	Kerkabou Abdeldjalil	Structural Elucidation of a New Kaurene Diterpene from Bioactive Leaf Extracts of <i>Atractylis gummifera</i> by Extensive 2D NMR Spectroscopy
P9	Lea Sammet	Sustainable Valorization by Foam Fractionation
P10	Selina Fladerer-Grollitsch	Synergistic Antimicrobial Activity of Historical Herbal Recipes from a Seventeenth-Century Austrian Drug Book
P11	Stefanos Kikionis	Oxygenated Diterpenes Isolated from Red Sea Soft Corals of the Genus <i>Sarcophyton</i>
P12	Warley de Souza Borges	Antitrypanosomal Activity of Amaryllidaceae Alkaloids from <i>Crinum americanum</i>
P13	Zeliha PARLAR	Neuroprotective Potential of <i>Myrtus communis</i> L. in Parkinson’s Disease: Targeting Early-Stage α -Synuclein Oligomerization and Motor Deficits
P14	Zeliha PARLAR	Bioactivity-Guided Discovery of Antidiabetic Agents from the Turkish Endemic <i>Onobrychis tournefortii</i> (Willd.) Desv.: From Folk Medicine to Bioactive Fractions
P15	Adriana Trifan	Safety Monitoring of Tropane Alkaloids in Commercial Herbal Teas Containing <i>Convolvulus</i> Species
P16	AKISSI Zachée Louis Evariste	Antimicrobial Potential of the Hydroethanolic Extract of <i>Massularia acuminata</i> leaves and Characterization of its Specialized Metabolites
P17	Alexandra-Mara Cimpanu	Exploring the Bioactive Profile of <i>Morus alba</i> and <i>Morus nigra</i> Extracts: Antioxidant, Anti-cholinesterase and Neuroprotective Properties
P18	Annunziata Paolillo	Phytochemical Analysis and Anti-inflammatory Potential of <i>Echinacea angustifolia</i> extracts
P19	Arleta Dołowacka Jóźwiak	From Botanicals to Nanocarriers: Inhibiting ocular glycation with Green coffee and <i>Juniper</i> fractions
P20	Beata Antosiewicz-Klimczak	Sideritis raeseri Extracts for Multidirectional Protection Against UV-Induced Skin Damage
P21	Carolina Pérez Reyes	Enhancing the Antitumoral Potential of Scytonemin: Synthesis and Molecular Docking of a Novel Acetylated Derivative
P22	Dovile Uogintaite	Effect of Aqueous Fireweed (<i>Chamerion angustifolium</i> L.) Leaf Extract and its Main Component Oenothien B on Colon Cancer Cell Viability and Energy Metabolism
P23	Ilaria Palmieri	Natural Antioxidants as a Protective Strategy Against Environmental Pollutant-Induced Sperm Damage: Synergistic Effects of Ellagic Acid and Ascorbic Acid
P24	Isabel López Bazzocchi	Multi-Target Inhibition of the HIV-1 Replication Cycle by Withaferin A-Analogues
P25	Kouassi Pierre Alain KONAN	Antimicrobial Activity and Phytochemical Profiling of Selected Medicinal Plants of Côte d’Ivoire
P26	Laura Ximena Amado Rodríguez	Evaluation of the Cytotoxic Effect of Extracts and Fractions of <i>Kalanchoe blossfeldiana</i> on Tumor Cell Lines
P27	Lorenzo Ibello	Natural Antioxidants In The Fight Against Ovarian Cancer: In Vitro Effects Of Polyphenols
P28	Luis Miguel Pombo Ospina	Amazonian <i>Copaifera officinalis</i> Oleoresin Induces Apoptosis in Human Tumor Cells: Chemical Profiling and In Silico Target Validation
P29	Magdalena Grajzer	Chemical Profiling and Anticancer Activity of <i>Fomitopsis betulina</i> Aqueous Extract in A549 and CCRF-CEM Cells
P30	María González-Linares	A Strategy for the Discovery of Antikinetoplastid Lead Compounds: Bioassay-Guided Fractionation of <i>Argyranthemum frutescens</i>
P31	Mary Fucile	Comparative Analysis of Phenolic and Capsaicinoid Profiles and In Vitro Biological Activities of Several <i>Capsicum chinense</i> Jacq. Cultivars
P32	Rodrigo Rezende Kitagawa	Covariance analysis of anticancer activity and marine natural products
P33	Amardeep	Variation in Solar Intensity Affect growth and essential oil content in <i>Kaempferia galanga</i> L.
P34	Carmen Diglio	Edible Feijoa flowers: Chemical Characterization, Edible Coating and in vitro Bioaccessibility
P35	Carmen Laezza	From North to South: Metabolic Profiling and Bioactivity of Extracellular Vesicles Derived from Finnish Cloudberry and Italian Apple
P36	Katarzyna Gawel Beben	Natural Deep Eutectic Solvents vs. Conventional Solvents for the Extraction of Bioactive Compounds from <i>Aronia melanocarpa</i>
P37	Marta Klimek-Szczykutowicz	Isoflavonoid-Rich Extracts from <i>Trifolium rubens</i> L. Parent Plant and Callus Cultures: Phytochemical Characterization and Anti-Aging Potential
P38	Marta Klimek-Szczykutowicz	Phytochemical Characterization and Anti-Aging Potential of <i>Lathyrus latifolius</i> L. Parent Plants and In Vitro Shoot Cultures
P39	Paula Garcia-Oliveira	Antioxidant potential and modulation of oxidative stress by a polyphenol-rich onion peel extract
P40	Przemysław Niziński	Extruded Snacks Fortified with <i>Schisandra chinensis</i> : Phenolic Profile and Antioxidant Capacity
P41	Przemysław Niziński	From Extruder to Gut: Bioactive Phenolics and Antioxidant Properties of Ginseng-Enriched Snacks after Simulated Digestion
P42	Ramla Khiari	Carbohydrate Modulation through Solar dDrying: Enhanced Functional Value of Figs
P43	Roberta Cuozzo	Phytochemical investigation of the edible wild plant "Aspraggine" (<i>Helminthotheca echioides</i>): extraction, LC-MS metabolomics, isolation of compounds and evaluation of antioxidant activity
P44	Salvatore Avilia	Acclimation of <i>Galdieria daedala</i> to a Grape-Pomace- Derived Aqueous Matrix for Biomass and Phycobiliprotein Production
P45	Sevinci Pop	Cold-pressed <i>Cannabis sativa</i> and <i>Silybum marianum</i> seed oils: Physicochemical Characterization and Selective Biological Activity in Hepatic Cell Lines
P46	Sinjini Datta	Differential Red-Blue Combinations of LED Lights Influence Physiology and Metabolic Efficiency in Celery (<i>Apium graveolens</i> L.)
P47	Lopamudra Ballabh	Artificial Induction of Tetraploidy Enhances Essential Oil Biosynthesis and Accumulation in Patchouli
P48	Rita Grieco	Effects of the Invasive Ornamental Species <i>Solanum elaeagnifolium</i> (Solanaceae) on Soil Biological Activity in Mediterranean Environment
P49	Sanja Čavar Zeljković	Linking Phenolic Composition with Epiphytic Microbial Communities in Edible Snapdragon and Viola Flowers
P50	Vincenza Greco	Bioactive Polyphenolic Phytocomplexes from Leaves of <i>Thymus vulgaris</i> Cultivated in Former Tobacco-Growing Areas of the Sannio Region
